

SCHOOL CASE STUDY

Sciennes Primary School – Primary 7 Conference Day September 2008

Sciennes Primary School in Edinburgh ran a conference day for all their Primary 7 pupils at the start of their academic year. The 77 pupils participated in a full day of workshops and discussions to promote and encourage Citizenship in the Curriculum of Excellence programme.

The school invited the imagination workshop to run four sessions throughout the course of the day where each pupil designed and painted a canvas bag – making their own 'bag for life'.

Following a brief discussion on why it is better to use one reusable bag instead of multiple plastic bags, the pupils really let their creativity shine and came up with brilliant designs! The eco message came through loud and clear with many planning to use their bags to go shopping, while the recent Olympic Games was also a popular theme for pupils who planned to use their bag for sports kits.

Deputy Head Teacher, Alice Brown, said "it was lovely to have your support yesterday with our event. Thank you for your time and effort with our pupils, they thoroughly enjoyed your workshop. We look forward to working with you again."
